**Subject:** Kalamazoo River NRDA: Draft Notice of Intent for an EIS for your review (just 6 pages)

Jim, Jan and Andrew,

As we've discussed previously, the NRDA Trustees are preparing an Restoration Plan/Programmatic EIS to share potential restoration concepts and projects related to the Site as a whole with the public. We are doing this so that the public review and comment can inform Trustee participation in any relevant global settlement discussions. The attached document is simply a public notice that we are preparing an RP/PEIS, and we'd like your review of it before we release it. It's only 6 pages of text or so, and the first few pages are mostly boilerplate. Where you might be most likely to have edits are the couple of paragraphs in the Supplementary Information in which we describe the Site.

If we could get any comments that you might have by Oct 11, we'd appreciate it.

Thank you!

-Lisa
